

# Requirements of packaging for BigBags deliveries to AUREC GmbH.

# BigBags delivery.

## Requirements

1. Inherently stable; i. e. if filled up no excess length of pallet frame 850 x 800 mm
2. Four loops on each side
3. Capacity of 1,000 l
4. Dustproof, i.e. seam sealing
5. Single layer, without inner sack and discharge mouth
6. Flame-resistant and antistatic material
7. Unobjectionable of mining sanitary
8. CP 3 palletised
9. Explicit identification marking on two sides with waste producer and contents

## Details:

- Using Big Bags as packing material is bounded on wastes without coarse and sharp-edged components.
- Requirements are being used independently to the regulation of Dangerous Goods Ordinance Road and Rail.
